## Heat Pump vs. Solar – Which Pool Heater is Right for Your Florida Pool?

**Warm Pool Days, All Year Long**  
**Charlotte County Pool Heating Showdown**

### Heat Pump

- Upfront Cost; \$\$\$
  - Operating Cost: Moderate (small electric bill bump)
  - Heating Speed: Fast – warms in hours
  - Reliability: Works rain or shine, above 50°F
  - Lifespan: 10–15 years
- Best For: Year-round swimmers who want consistent comfort

### Solar Pool Heating

- Upfront Cost: \$\$
  - Free after installation
  - Heating Speed: Slow – depends on sun exposure
  - Reliability: Weather dependent, weaker Dec–March
  - Lifespan: 15–20 years
- Best For: Seasonal swimmers who want eco-friendly heating

**Pro Tip** Use a solar blanket with any system to trap heat overnight and cut down on evaporation.
